🛡️ Stay Safe Online – Checklist for College Students in India

✔️ General Online Safety Practices

- Use strong and unique passwords for all digital accounts, combining letters, numbers, and special characters, and avoid reusing passwords across platforms.
- Enable two-factor authentication (2FA) on important accounts such as email, social media, and banking applications to add an extra layer of security.
- Exercise caution while clicking on links received through emails, messages, or social media, especially if they appear suspicious or create a sense of urgency.
- Verify the authenticity of individuals or organizations before sharing any personal, academic, or financial information online.
- Avoid accessing sensitive accounts, such as banking or official portals, over public or unsecured Wi-Fi networks.
- Regularly update devices, applications, and antivirus software to protect against the latest security threats and vulnerabilities.
- Download applications only from trusted and official sources, such as the Google Play Store or Apple App Store, to minimize the risk of malware.
- Practice responsible digital behavior by avoiding oversharing personal details such as phone numbers, addresses, or college identification information on public platforms.

💰 Financial and UPI Safety Measures

- Never share confidential information such as OTPs, UPI PINs, or banking credentials with anyone, including individuals claiming to be bank officials.
- Understand that scanning a QR code or approving a payment request results in sending money, not receiving it.
- Carefully review all transaction details before approving any payment request on UPI applications.
- Remain cautious of unsolicited calls or messages requesting verification or updates of financial information, as these are common fraud tactics.

🚨 Reporting Cybercrime

- In case of any cybercrime incident, report it promptly on the **National Cyber Crime Portal (cybercrime.gov.in)**.
- For immediate assistance in financial fraud cases, contact the **Cyber Crime Helpline at 1930**.
